

Quick Reference Guide

HEALTHe NL – Immunizations Tab

June 7, 2021

This quick reference guide demonstrates how to access a patient’s immunization record in HEALTHe NL.

Log in to HEALTHe NL

There are two methods that you can use to access HEALTHe NL:

METHOD 1

Launch into HEALTHe NL via Meditech.
Please click [here](#) to view instructions on how to access HEALTHe NL through Meditech in your Regional Health Authority.

METHOD 2

Go to the HEALTHe NL website: <https://healthenl.ca>

- Enter your username.
- Enter your password.
- Click the **Login** button.

Confirm your Contact Information

You may be asked to confirm the contact information you monitor daily.

- Enter, update, or confirm the applicable information and click the **This information is correct** button.

Confirm your contact information

It is critical to provide contact information that you monitor daily (e.g., personal email, etc.) to ensure you receive important clinical, referral, and enhancement notifications related to HEALTHe NL. The personal information disclosed on this form is collected and used for the purpose of providing you with pertinent information related to your HEALTHe NL account. [Click here for more information.](#)

Patient Demographic Search

HCN: JUN62251167
HCN Type: MCP

Please enter EITHER HCN OR Demographic search criteria. Searching by HCN will ignore demographic search criteria.

SEARCH

HCN	Name	Date of Birth (Age)	Gender	Address
JUN62251167 (MOM)	RICARDIA, PAMELA, Son	1962 Sep 09 (58 years)	Female	340 BOYLE PLACE, MERRIDEN, ONT, NL, N0R 2G0, CA

Results: 1

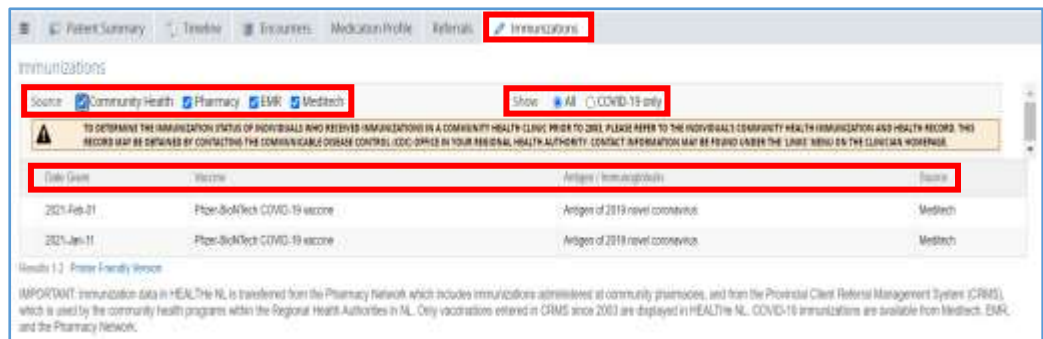

- You will know you are in the patient's profile when you see the patient name listed at the top left corner of the screen. From the patient profile, you will see the HEALThe NL tabs displayed across the top of the screen.

Immunization Tab

To view the patient's immunization record, complete the following steps:

- Click on the **Immunizations** tab at the top of the screen. The patient's immunizations will appear in a table where the **Date** the immunization was given, the type of **Vaccine** given, the **Antigen/Immunoglobulin** and the **Source** of the information will display.

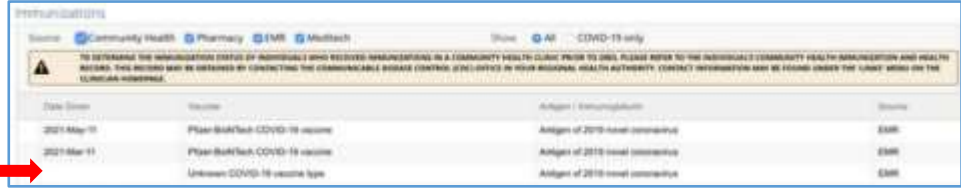

- **PLEASE NOTE**
You will see this additional disclaimer. It is important you read this messaging.

➤ **PLEASE NOTE**

If the patient record displays a blank field under the 'Date Given' column, please refer to the patient's paper copy to determine the date they received their COVID-19 vaccination.

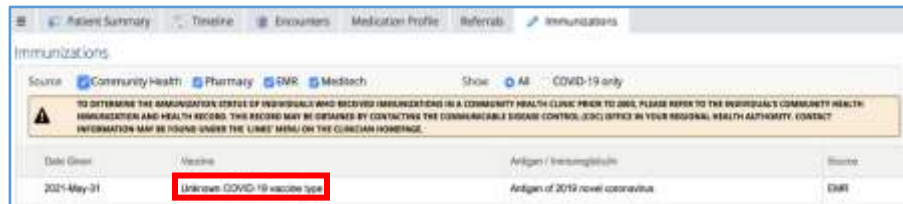

The screenshot shows an immunization record with the following data:

Date Given	Vaccine	Antigen / Immunoglobulin	Source
2021 May-15	Pfizer-BioNTech COVID-19 vaccine	Antigen of 2019 novel coronavirus	EMR
2021 Mar-15	Pfizer-BioNTech COVID-19 vaccine	Antigen of 2019 novel coronavirus	EMR
	Unknown COVID-19 vaccine type	Antigen of 2019 novel coronavirus	EMR

➤ **PLEASE NOTE**

If the patient record indicates **Unknown COVID-19 Vaccine Type** in the 'Vaccine' column, a first dose COVID-19 vaccine was administered in NL, however, there are a small number of vaccine records that are not transferring to HEALTHe NL with the name displayed. Vaccines available in NL are AstraZeneca, COVISHIELD, Pfizer-BioNTech or Moderna. Confirmation of vaccine type can be obtained from the client's paper vaccination record. If the paper vaccination record is not available, an mRNA vaccine (Pfizer-BioNTech or Moderna) can be administered as a second dose.

The screenshot shows an immunization record with the following data:

Date Given	Vaccine	Antigen / Immunoglobulin	Source
2021 May-31	Unknown COVID-19 vaccine type	Antigen of 2019 novel coronavirus	EMR

- Immunization 'Source' filters are provided at the top left of the screen:
 - **Community Health:** this filter includes all Community Health and Public Health immunizations. Community Health **does not** include COVID-19 immunizations.
 - **Pharmacy:** this filter includes all Pharmacy immunizations.
 - **EMR:** This filter provides COVID-19 immunizations only.
 - **Meditech:** This filter provides COVID-19 immunizations only.
- 'Show' filters are provided at the top right of the screen:
 - **All:** this option will provide you with all immunizations from Community Health and Pharmacy, and COVID-19 immunizations from EMR and Meditech.
 - **COVID-19 only:** this option will provide you with COVID-19 immunizations only regardless of the 'Source' selected.

Immunization Detail

To view more detail about an immunization, complete the following steps:

- From the Immunization table, click on the applicable immunization.

The screenshot shows a table with columns: Date Given, Vaccine, Administered by, and Status. A red arrow points to the first record.

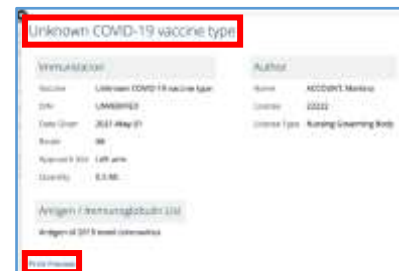

Date Given	Vaccine	Administered by	Status
2021 Jun 01	Pfizer-BioNTech COVID-19 vaccine	Antigen of 2019 coronavirus	Marked
2021 Jun 01	Pfizer-BioNTech COVID-19 vaccine	Antigen of 2019 coronavirus	Marked

- A pop-out window will appear providing further detail about the immunization.

The screenshot shows a pop-out window for 'Pfizer-BioNTech COVID-19 vaccine'. It contains fields for 'Vaccine Type' (Pfizer-BioNTech COVID-19 vaccine), 'Date Given' (2021 Jun 01), 'Administered by' (Antigen of 2019 coronavirus), and 'Status' (Marked). A red box highlights the 'Status' field.

- PLEASE NOTE:** if it is an **Unknown COVID-19 Vaccine Type**, it will be indicated in the pop-out window

The screenshot shows a pop-out window for 'Unknown COVID-19 vaccine type'. It contains fields for 'Vaccine Type' (Unknown COVID-19 vaccine type), 'Date Given' (2021 May 01), 'Administered by' (Antigen of 2019 coronavirus), and 'Status' (Marked). A red box highlights the 'Status' field.

- You can also view **Notes**, or access the **Print Preview** option.
